In the USA Russian Whites and Blacks have made

History!

From the 1st of May 2010 the American Cat Fanciers Association have their standard from Russian Blue to Russian Shorthair. Russian Whites and Russian Blacks will be show in the championship class.

Many thanks must go to Andrea Thompson of Rubanthom Cattery for all the work she has done since Riverlight Barishnikov arrived in America in 1998.

Barishnikov, a White Russian carrying black and tabby, sired many kittens to help the development of the colours in America.

His pedigree has Riverlight, Rovene, Ramsallah and Myemgay catteries no other catteries with whites, tabbies and blacks.

Congratulations go those catteries for contributing to this recognition of the black and white Russians in the USA.

Barishnikov has made history and will always be remembered.
